

To whom it may concern,

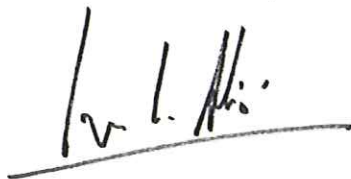

This is to certify that Ahmed Galal Ahmed was a post doctoral fellow at this Institution under my direct supervision from 2nd April 2001 to 30th June 2007.

During this period, Dr Ahmed Galal Ahmed proved to be a talented surgeon, talented clinician and professional gifted with a high level of creativity. His consistent daily work and his positive attitude led to a number of peer review publications, podium presentations, courses, and other academic activities at our institution, national Spanish meetings and international Ophthalmology meetings. He was a direct collaborator with me in the topics of microincisional surgery, excimer laser surgery, anterior segment surgery and glaucoma. He also participated in the activities of research and development and innovation under my direct supervision. Finally, Dr Ahmed Galal Ahmed finished his doctorate successfully with the highest degree at Miguel Hernandez University.

I strongly support Dr Ahmed Galal Ahmed for any professional or academic position. He is bilingual English and Spanish and he is an expert scientific writer in Ophthalmology issues. His ethical attitude with his colleagues and patients has also been outstandingly good and he was very esteemed by the patients under his direct supervision and care.

Dr Ahmed Galal Ahmed left this institution to continue his professional career in Spain and internationally. During this time we have been in direct personal communication and his attitude following his fellowship towards our professional and academic group has always been in terms of direct collaboration.
